

Building Leadership
Around Wisconsin

Working Together
For Change

Founded in 1999

People First Wisconsin

March 2009

After consulting with our members in local self advocacy groups around the state, the following are the **top four budget priorities** of People First Wisconsin.

1. To **fully fund Family Care** in the communities that already have Family Care and in the communities scheduled to begin Family Care in 2009-2010
2. To support the **downsizing of Southern Center** proposed by Governor Doyle in his budget
3. To fully fund the services that help people with developmental disabilities, especially intellectual disabilities, get **integrated community employment**
4. To restore funding to **independent living centers** in Wisconsin
