

Self-Directed Support and
Managed Long-Term Care:
Coming to a Neighborhood Near You?
September 19, 2007

Best Western Claridge, Rhinelander
10-12 AM, or 1-3 PM, With Lunch Provided

Family Care is expanding throughout Wisconsin, with Self-Directed Supports as a key element of that expansion. *Self-Determination Wisconsin* in conjunction with The Arc Wisconsin and the MidState Independent Living Consultants is sponsoring two meetings on September 19 to help people who rely upon and work within our long-term care system understand how Family Care and Self-Directed Supports can, if properly implemented work together to provide better opportunities for people with disabilities of all ages.

Two separate meetings will be facilitated by Dennis Harkins of Self-Determination Wisconsin and Jim Hoegemeier of The Arc Wisconsin. The 1st meeting will begin promptly at 10 AM and end at noon. We will repeat this session from 1 PM - 3 PM. We encourage the participation at these meetings of people who receive services, their families, and those who work in support of them in our various agencies.

There is no charge for these meetings, but for planning purpose, please register in advance, and plan to join us for a free lunch and informal discussion after the morning session, or before the afternoon session.

Please mail, call, fax or email your registration information to Becky Paulson, by September 7th. If you need an accommodation, please let her know.
